Users secured, 10+ EU countries

ABOUT

28 years in technology, the last **15 in dedicated cybersecurity leadership**, across the UAE, Saudi Arabia, Kuwait, Bahrain, Europe, and beyond. I advise executive committees on AI governance, ISO 27001/42001 audit readiness, and vendor selection.

Every policy, process, and program I design is built to withstand audit, pressure, and real-world attack alike — not just pass a checklist.

CREDENTIALS

- ✓ CISM
- ✓ ISO/IEC 42001:2023 Lead Auditor
- ✓ ISO/IEC 27001:2022 Lead Auditor
- ✓ CAISP v2.0
- ✓ Harvard Business School Online — Executive Education

FRAMEWORKS & STANDARDS

- ISO/IEC 27001:2022 — Information Security
- ISO/IEC 42001:2023 — AI Governance
- Saudi Arabia — NCA Essential Cybersecurity Controls (ECC)
- Kuwait — CITRA / National Cyber Security Center

WHERE I HELP

AI governance & readiness

ISO/IEC 42001-aligned frameworks and responsible-AI risk assessments.

ISO 27001 / 42001 audit prep

Lead Auditor-led gap assessments and remediation plans.

Security policies & governance

The full policy backbone, built to actually be followed.

Cybersecurity technology advisory

Independent, vendor-neutral guidance on security tooling.

RFP development & vendor selection

RFPs that ask the right questions, scored objectively.

Cyber program & project leadership

End-to-end strategy for drills, SOC builds, and cross-border programs.

MARKETS & INDUSTRIES

UAE

Saudi Arabia

Kuwait

Bahrain

FMCG

Healthcare

Government

Retail

Telecom

Banking

M&A · HEALTHCARE

12 acquisitions integrated in one year

SOC · CRISIS RESPONSE

A follow-the-sun SOC, tested by WannaCry

GOVERNMENT · GULF REGION

Post-pandemic hardening for a Gulf government entity
